Hyderabad, India

Professional Summary

Full Stack Developer with 2.6+ years of experience building scalable web applications using React, TypeScript, Node.js, MongoDB, WebRTC, and Socket.IO. Experienced in developing frontend applications from Figma designs, migrating frontend architectures, integrating REST APIs, and building reusable UI components. Strong exposure to real-time systems, authentication, role-based access control, and performance optimization, with experience collaborating across frontend and backend teams.

Core Competencies

React.js React Hooks TypeScript JavaScript Node.js Express.js MongoDB REST APIs Redux Toolkit Socket.IO WebRTC System Design Fundamentals CI/CD Authentication Real-Time Systems Debugging Performance Optimization Team Collaboration

Technical Skills

Frontend Development: React.js, React Hooks, JavaScript (ES6+), TypeScript, Next.js, HTML5, CSS3, Tailwind CSS, Bootstrap, Material UI (MUI), ShadCN

State Management & Data Fetching: Redux, Redux Toolkit (RTK), RTK Query, Context API, React Query, Zustand

Backend Development: Node.js, Express.js, RESTful APIs, JWT Authentication, API Integration, Kafka (Fundamentals)

Real-Time Systems: Socket.IO, WebRTC, Server-Sent Events (SSE)

Databases & Caching: MongoDB, Mongoose, SQL, Redis

Cloud & Infrastructure: Firebase (Auth, Firestore, Hosting), AWS (EC2, S3, IAM – foundational)

Architecture & Design: System Design Fundamentals, Scalability Concepts, API Design, Caching Strategies

API & Validation: GraphQL, Zod

DevOps & Tools: Docker, CI/CD, Git, GitHub, VS Code, Postman

AI-Assisted Development Tools: GitHub Copilot, Claude Code, Cursor AI, Windsurf AI

Testing: Jest

Professional Experience

Software Engineer

Feb 2026 – Present

Kellton Tech Solutions — Hyderabad

Client/Project: IXIGO – AbhiBus Migration

- Worked on frontend application development and migration using React.js, TypeScript, ABRs-UI, and Tailwind CSS.
- Contributed to frontend architecture migration alongside evolving backend API changes.
- Collaborated closely with backend teams to align API contracts and frontend integration flows.
- Participated in technical discussions, clarified requirements, and proactively identified implementation gaps.
- Successfully completed the AbhiBus frontend migration project on May 5, 2026.

Client/Project: Rentokil – SPARTA

- Developing a multi-module web application from the ground up based on business requirements and Figma designs.
- Building reusable and maintainable frontend components using React.js, TypeScript, and MUI.
- Translating Figma designs into responsive, production-ready user interfaces while maintaining consistency across modules.
- Collaborating with backend teams to integrate APIs and support end-to-end feature development.

- Participating in technical discussions and requirement clarification to identify implementation gaps early.

Full Stack Developer (Frontend Focus)

Nov 2023 – Dec 2025

InstaVC — Hyderabad

- Developed and maintained production web applications using React, Node.js, TypeScript, MongoDB, WebRTC, Socket.IO, and Firebase.
- Built and enhanced user-facing modules while improving application performance, reliability, and user experience.
- Contributed to InMeet, a video conferencing platform, by developing real-time meeting and webinar features using WebRTC and Socket.IO.
- Contributed to E-Sanjeevani, a telemedicine platform, by implementing P2P video consultation and real-time language translation features.
- Participated in InLynk feature development and bug resolution to improve application reliability and scalability.
- Collaborated with cross-functional teams to troubleshoot issues, integrate APIs, and deliver production-ready features.

Teaching Assistant (Internship – MERN Stack)

Jan 2023 – Aug 2023

CCBP (NxtWave) — Remote

- Resolved 518+ technical queries and mentored 421+ learners in JavaScript, React, Node.js, and MongoDB.
- Reviewed code and guided learners on debugging, problem-solving, and development best practices.
- Recognized as “TA of the Week” (6x) and “TA of the Month” for consistent performance.
- Simplified real-world coding problems and helped learners improve their technical understanding.

Selected Projects

CollabFlow – Real-Time Project Management Platform

Personal Project

Technologies: React 19, TypeScript, Node.js, Express.js, MongoDB, Mongoose, Socket.IO, JWT, Tailwind CSS, Vite, Zod

- Designed and implemented an enterprise-level authentication system with JWT, multi-device session tracking, and OTP-based verification for suspicious logins.
- Built real-time collaboration features using Socket.IO, including live task synchronization, presence indicators, collaborative cursors, and instant notifications.
- Implemented role-based access control (RBAC) with Owner, Admin, Member, and Viewer permissions, along with a drag-and-drop Kanban board and project analytics.

InLynk – Collaborative Networking Platform

Professional Project

Technologies: React.js, Redux, React Hooks, Node.js, MongoDB, TypeScript, Firebase, Socket.IO

- Contributed to feature development, performance optimization, and bug resolution to improve application reliability and user experience.

InMeet – Video Conferencing Application

Professional Project

Technologies: React.js, Redux, WebRTC, Socket.IO, Node.js, Firebase, MongoDB, IndexedDB

- Built and enhanced real-time video conferencing and webinar features using WebRTC and Socket.IO.
- Integrated Razorpay for license-based meeting and webinar creation.

E-Sanjeevani Client – Telemedicine Platform

Professional Project

Technologies: JavaScript, WebRTC, Socket.IO, Node.js, HTML, CSS, IndexedDB

- Developed secure P2P video consultation features using WebRTC and Socket.IO.
- Implemented live language translation to improve doctor-patient communication.

Education

B.Tech (Mechanical Engineering) — Kakinada Institute of Technology and Science Jun 2019 – Apr 2022

Diploma (Mechanical Engineering) — Kakinada Institute of Technology and Science Jun 2016 – Apr 2019

Certifications

Industry Ready Certificate — NxtWave
